

TECHNICAL DATA SHEET

Ammonium Chloride

-CAS: 12125-02-9

-Molecular Formula: NH_4Cl

-HS Code: 282710

-EINECS: 235-186-4

-Water Solubility: Easily soluble

-Appearance: White crystal/granular

-Packaging Details: 25kg/50kg PP+PE bag, 1000kg/Jumbo bag

Specification:

AMMONIUM CHLORIDE %	\geq	99.5
MOISTURE %	\leq	0.7
RESIDUE ONIGNITION %	\leq	0.4
HEAVYMETAL(Pb) %	\leq	0.0005
SULPHATE %	\leq	0.02
FE %	\leq	0.001
Ph200g/L 25		4-5.8

Application:

1. It can be used as raw materials to manufacture dry cells and batteries, other ammonium salts, electroplating additives and metal welding flux;
2. Used as dyeing assistant, tin plating and galvanizing, tanning, medicine, candle making, adhesive, chromizing and precision casting;
3. Used in medicine, dry battery, fabric printing and dyeing, detergent, fertilizer, etc;
